Raihan Rezki Ramadhan

Fullstack Developer

Banjarbaru, Indonesia | rezkiraihan123@gmail.com | github.com/RaiiHann5

PROFILE

Fullstack developer who thinks like a designer. I build fast, scalable, and accessible web applications with smooth user experiences, from the interface down to the data behind it. Started Webtera with friends, a small creative development team.

SKILLS

Frontend: React, JavaScript, TypeScript, CSS3, Tailwind CSS

Backend: Node.js, PHP, Laravel, Python

Database: MySQL, MongoDB, PostgreSQL, Supabase

Mobile: Flutter, Kotlin, Firebase

Design & tools: Figma, Git, GitHub

PROJECTS

Webtera Landing Page (2023)
Landing page for a web development agency covering services, portfolio, and testimonials.
Stack: React, Tailwind CSS

Coffee-con (2026)
Website for a modern cafe, built around photography with a one-handed mobile menu.
Stack: React, Tailwind CSS, JavaScript

Math Labs (2023)
Math learning platform with step-by-step solutions and practice.
Stack: React, Tailwind CSS

EnglishPath (2025)
English learning platform with short lessons and visible progress.
Stack: React, Tailwind CSS, JavaScript

JOURNEY

2024 Started web development with HTML, CSS, and JavaScript; began combining code with UI design.

2025 Focused on React and Tailwind CSS; started building larger real-world projects.

2026 Started Webtera together with friends, a small creative development team.
